

# GoVision Pro

Full-Page OCR with Great Magnification

**HIMS**  
Lifestyle Innovation

The GoVision Pro is the best magnifier when you want distance magnification, easy and intuitive document magnification, and full-page OCR.

Get the optional rolling case for maximum portability!

## Portable Read, Write, and Distance Magnifier

The GoVision Pro is a space saving HD video magnifier that combines the best features of a desktop magnifier with portability and connectivity unrivaled by other products. Magnify text, view photos, check food ingredients, do crafts and more. Use Self View mode for personal grooming and Distance Mode to view a whiteboard in class or a presentation at work.

## Full-Page OCR

GoVision's easy-to-use wired remote control makes it simple to capture printed text for OCR. Captured text can be read aloud and can be read in your preferred method.

## Versatile Design

The GoVision Pro has a versatile design that allows you to adjust the camera position and screen position to match your reading needs.

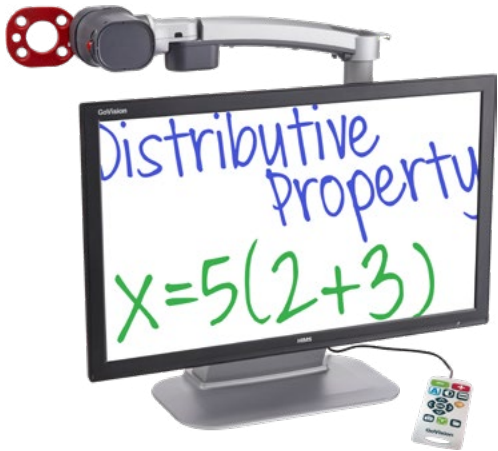

## High Definition Magnification

Utilizing a 60 frames-per-second camera with full high-definition image makes images appear crisp and clean, and text is easy to read.

## Brightness, Color, and Contrast

Adjust LED lights with brightness controls and choose your favorite color scheme to make reading easy on your eyes.
