

## Braille EDGE 40

Braille EDGE 40

Braille EDGE 40

Braille EDGE 40

### More Than Just a Braille Display

Braille EDGE 40 is a value-priced 40-cell refreshable Braille display with value-added features. Read Braille wherever you go from your iPad™ or Android™ tablet, Mac™ or Windows™ laptop or PC, or smartphone and enjoy higher functionality with a built-in notepad, calculator, scheduler, alarm, stopwatch and more. Use our unique terminal clipboard to compose and edit text using the Braille EDGE and send complete passages to your connected devices.

### On-the-Go Features

Do more than simply read text from connected devices. Take Braille EDGE with you (with or without a connected device) to take notes using the notepad, read stored documents including Microsoft Word and Braille formats on-the-go, be reminded of important dates and events and even calculate a restaurant tip using the built in calculator.

### Compatible with Popular Screen Readers

Braille EDGE will connect as a Braille terminal with screen readers including JAWS, Window-Eyes, SuperNova, System Access, Voice-Over for Mac and iOS, BrailleBack for Android, Mobile Speak, and TALKS. Using Braille and speech together provides even more options for you to navigate various document types and formats.

### User-friendly Function Keys

Braille EDGE 40 features 2 four-way navigation keys and 8 function keys (Escape, Tab, Control, Alt, Shift, Insert, Windows, and Applications) combining the convenience of entering text in Braille with the intuitive functionality of a PC keyboard. Navigate the display screen of a PC, Mac, iPad, iPhone or other smartphones or tablets directly from Braille EDGE's Perkins-style Braille keyboard.

### Stay Connected All Day via Bluetooth or USB

Stay connected via Bluetooth for up to 20 hours without the need for charging. For even longer run time, connect via USB and enjoy all the great features of Braille EDGE 40 while simultaneously charging the unit.

## Design, innovation, quality and productivity apps at a value price

- Open .DOC, .DOCX, and .RTF documents in addition to .BRF and .TXT files
- Use Terminal Clipboard to type and edit text on the notepad, then send it as a text block to your iPhone or other connected device
- Write in 17 languages with the addition of several Braille language tables
- Read and edit text documents in contracted Braille
