

Braille Sense U2 U2 QWERTY and U2 MINI

Braille Sense U2

Braille Sense U2 QWERTY

Braille Sense U2 MINI

The Perfect Productivity Tool for School, Office, Home or On-the-Go

These feature-filled Braille notetakers offer unmatched capabilities for school and workplace productivity. Level the playing field with specialized, proprietary apps for Microsoft Word™, Excel™ and PowerPoint™, stay in touch with family and friends using Braille-friendly social media clients, explore your world with a built in GPS and compass, or enjoy a book in one of 36+ text and media formats.

Powerful Data Processing with a Common-sense Interface

Braille Sense U2 offers rapid data processing combined with ample storage. With a Windows™-like interface, operation of the Braille Sense is familiar to students or employees currently using a PC. Conversely, students using Braille Sense transition more easily back to a PC. U2 and U2 MINI feature a Perkins-style keyboard and a 32-cell or 18-cell display respectively and U2 QWERTY has a standard English keyboard.

Broad Range of Reading & Notetaking Capabilities

Take better notes by recording right into DAISY format where you can easily insert headings, marks, phrases and pages. Create and read documents in a range of file types. Use our thesaurus and multilingual dictionaries for accuracy, and advanced style formatting to highlight important points. Analyze spreadsheets with our Excel Viewer, or follow along with a presentation using our PowerPoint Viewer.

Real-world, Intuitive Nemeth Support

When you print Nemeth from the Braille Sense word processor it looks just like your classmates' math notations. This means teachers and students can share assignments and homework without their teacher needing to learn strange abbreviations and code words.

Easy Connectivity with Your Favorite Devices

Connect your Braille Sense U2 notetaker via Wi-Fi, Bluetooth or USB to your Windows or Mac™ computer, iOS™ device, Android™ tablet or phone for even greater functionality. Braille Sense U2 is the only notetaker with an on-board LCD display so teachers and parents can interact and help students with work.

Braille Sense U2

New firmware (*always FREE*) adds exciting mainstream-compatible features

- Collaborate with friends and family on Facebook™, Twitter™, Google Talk™, YouTube™ and Dropbox™
- Save time with custom shortcuts in Macro Manager
- Password protect your device on start-up or wake-up
- Take better notes by recording in DAISY
- Edit two documents at once with our dual-document word processor
- Access and analyze spreadsheets and databases like never before with our Excel Viewer and CSV support
- Open web pages up to 10x faster with Quick Browser
